

Campuses for Environmental Stewardship Sub-grant Program

Action Plan Worksheet #1

Complete one Action Plan Row for each objective. (Add as many objectives and actions as necessary)

Goal: To strengthen curriculum and initiate changes in campus delivery of courses by embedding environmental and STEM collaboration community projects into courses.

Sample Objectives: *Conduct needs assessment of community partner; outline project goals; plan beginning and end-of-semester events with faculty team and community partners; establish common readings and/or reflections for all courses taught under sub-grant, have courses from different disciplines collaborate with the same community partner on different angles of the same project.*

Objective:

Objective:

Action To Be Taken <i>Each action should be a <u>specific and measurable</u> activity that can be completed within a defined period of time.</i>	Persons Involved	Timeline <i>Date by which the Action should be completed.</i>	Lead Individual <i>Gathers the group & monitors timeline.</i>	Evidence of Success <i>What are our indicators of success? What data will we collect and how will we collect it?</i>
